

Hygge 5 Day Home Pack 3

5 Days of Open Ended Play and
Ideas for Home

Day 1

Hook: Story Telling

This can be done in one of two ways. You might decide to do a story telling scrapbook and sit down with your child and ask them if they would like to tell you a story. You can then scribe down what they tell you. At the end you can read it back to them and ask if they would like to draw any pictures to go with it.

Or

Record down the stories children tell in their play when using their imagination. When the play has finished these stories can be read back to the children.

Day 2

Hook: Create a Fairy Garden

Ideas for resources

1. Something to build your garden in. This could be a pot, raised bed, wheel barrow or even on a small scale in a mason jar.
 2. A home
 3. Glass beads
 4. Mirrors for water
 5. Pebbles
 6. Stones
 7. Grass and mosses
 8. Plants that children can grow
 9. Toadstools
 10. Fairy door
11. Accessories like benches, mini tool sets, tea sets...
 12. Sign posts

Day 3

Hook: Make a cosy den or home for your favourite teddy

Can you make a house or a cosy den for your favourite small world character or soft toy? What will you use? Can the children make a list of what materials will be needed and draw up a labelled plan?

As they start building the den remember that the process of learning is more important than the end outcome. Look at and support the ways the children choose their materials and problem solve joining these together.

Day 4

Hook: Look through old photos together and talk about your memories and who's who.

This might lead on to making a zig zag book about family members or creating your own family tree. It could just be a wonderful way of re-living past holiday's and precious moments and a quality time to connect and develop language.

Day 5

Hook: Make some boats for your paddling pool

This is a lovely open ended hook that encourages lots of discussion on what materials the child will use, what does it mean to be waterproof, do they predict the boat will float? How many small world people can the boat hold? They can then test out their ideas and problem solve in response.

A Quote To Stick Up

more music
more reading
more time
more moments
more sunsets
more laughter
more sharing
more hugs
more love
more hygge.
